| 2. Grow and diversify the company | 4. Deliver positive social value |

Objectives are measured at relevant functions and levels, including through Key Results and the MKC Training Dashboard. These are maintained as documented information and regularly reviewed.

Responsibilities

Directors, management and supervisory staff have responsibilities for the implementation of the policy and must ensure that quality issues are given adequate consideration in the planning and day-to-day supervision of all work. All employees, associates and subcontractors are expected to co-operate and assist in the implementation of this policy. This includes co-operating with management on any quality-related matter. This statement covers all sites on which the company carries out its activities, including remote activities. It will be reviewed annually and following any changes in legislation. Full QMS arrangements are available through our SharePoint site.
